## AT YARN EXPO AUTUMN 2021

**Booth No.: 8.2 - D53**

[www.everest.com.tw](http://www.everest.com.tw)

Being Asia's comprehensive yarn & fibre business platform, Yarn Expo Autumn 2021 welcomes **Everest Textile Co Ltd** from **Taiwan China** to showcase their **textured yarn** at the fair.

*(Detailed product info featured on page 2.)*

### Everest Textile Co Ltd

Everest Textile Co Ltd (Everest Textile) is a public listed company in Taiwan since April 1995. It is the first vertically integrated textile manufacturer in Taiwan which specializes in yarn texturizing, weaving, knitting, dyeing, post-finishing (including printing, coating, laminating) and garment production.

Everest Textile is a leading sustainable enterprise and all of its products and processes are certified by the Swiss bluesign organization. In light of the green opportunities in environmental protection and outdoor markets, Everest Textile continues to develop fusion innovation - fashion and functional fabrics based on bio-based materials and becomes an indispensable, long-term partner with international and outdoor sports brand customers.

### The Value-Added Yarn of Everest Textile

Our DTY mill was established in 1968, the pioneer producer of "New Synthetic Fiber (Shin Goshen)" in Taiwan, and also the first mill successfully to put the microfber in mass production, to make the "Moss Product" in great demand all over the world.

Everest continued learning from benchmark and innovative C&D (Connection & Development), successfully produced several main items, now Everest is the largest Spandex ACY mill in Taiwan (1500 tons/ month). We will uphold Everest's core spirit- "innovation" and "Sustainability" by using "Compound Processing" to co-create new products, new value and new business opportunities with customers and suppliers in order to enhance the global competitiveness of Taiwan textile industry.

**9 – 11 October 2021**

**Hall 8.2**

National Exhibition and Convention Center (Shanghai), China

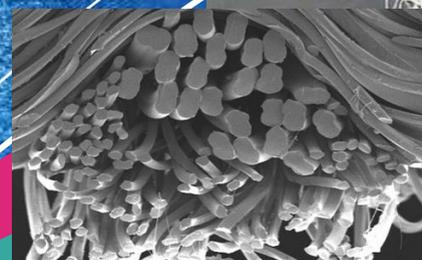

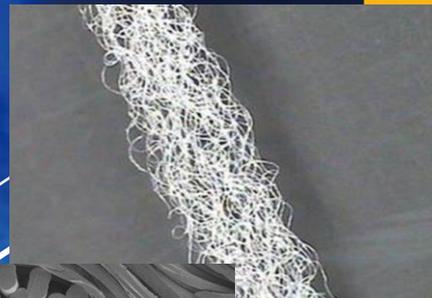

## Mechanical Stretch

By special raw material and Everest's unique texturing technology, via the fabric designs, dyeing and finishing process to give the natural pattern, soft hand feel and comfortable stretch.

### Product Specifications:

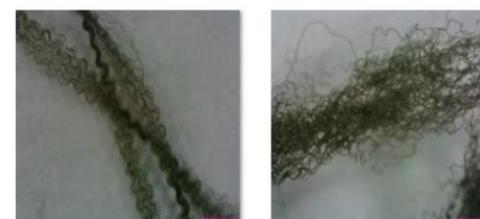

Polyester: DHCR  
Nylon: F66DHCR, F66UHCR  
Recycled PET: GPSHCR, GPSDHCR  
E2000: T4SDW, T4CDW (Side-By-Side Compound Yarn)  
Two Tones Melange: CDPWSP, CDPDHCR, PF66DHCR (N/T Compound)

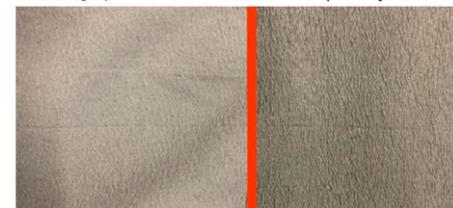

## Spandex-free FEFC®Power X

1. Modified polymer + improved process to create the innovative Specialty POY
2. More than 40% elasticity after false-twist processing and heating, with resilience higher than average mechanical stretch yarn
3. The boiling shrinkage rate of DTY is higher than that of average DTY by 50%~60%
4. With reduced use of Spandex, easing the future recycling of fabrics

- 30~86d POY(Bright luster)

Average processed fibre      Specialty POY

## Cool Yarn

Garments made from Cool Yarn have been shown to reduce body temperature by 1-2 °C, making the wearer feel cooler and comfortable. Not only this, Cool Yarn is also green. If office air-con temperatures are raised by 1 °C then 3-5% of energy costs can be saved. Cool Yarn absorbs moisture and shifts sweat, is UV-cut and has a micro massage function. In terms of washing, after being washed 50 times, 80% of function is retained. It is ideal for use in making summer shirts, outdoor and sports garments and tight-fit garments.
